The DP225 Digital Franking Machine utilises leading-edge technology, making it a cost-effective way to communicate powerfully with existing and potential customers. It's an invaluable asset for any small business that's currently growing and has serious ambitions to ensure that growth continues.

The DP225 Digital Franking Machine is a compact, easy to use franking machine that fits easily on a desktop and allows you to benefit from minimising postage costs without compromising on efficiency.

Improved productivity - mail processing speeds of up to 45 pieces per minute

Enhanced visibility - allocate costs to up to 100 accounts

Greater flexibility - with an integrated 5kg weighing platform

Greater accuracy - with differential weighing

If you've never had a franking machine before, the DP225 Digital Franking Machine will revolutionise the way you deal with your mail.

If your business has outgrown your current franking machine, it's almost inevitable that you're missing out on significant savings in time and money. Making do with obsolete technology could be stalling the growth of your company and limiting awareness of your brand.

If you send between 20 and 75 pieces of mail a day, the DP225 makes an ideal upgrade. We're confident it will have a positive effect on the profitability of your business from the day it's installed.

The DP225 can save your business time and money.

ROYAL MAIL ANNOUNCE MAILMARK™

Mailmark™ combines a new barcode with innovative optical technology and digital performance reporting. When you adopt Mailmark™, you'll know where your mail consignment is in the network, when it's scheduled to arrive and how well it performs – all at a click.

DP225 BENEFITS

Save over stamped mail:

You can be confident your postage costs are being kept to a minimum.

Automatically calculates the exact postage:

No overpaying. And also no underpaying, so ensuring you won't incur the expensive surcharge that Royal Mail apply to every item that's incorrectly priced.

An integral weighing platform that can handle parcels up to 5kg.

And there's no need to sort mail into separate weights and sizes. The DP225 will apply the correct tariff to each item as it's removed from the weighing scales.

Process your mail in one compact unit, no need for separate scales.

No interruption to your normal mailing procedures.

Replenish your franking machine from your office, 24 hours a day, at the touch of a button.

Access to Postage Power, our post now and pay later service. This allows you to:

- Get up to 55 days free credit
- Consolidate supplies and maintenance invoices onto a single monthly statement

Account management facility with up to 100 accounts:

Manage your budget and accurately apply departmental cross-charges.

IntelliLink™ connects your franking machine to a secure sever via the internet, enabling services such as postal tariff changes, software updates and envelope messaging to be downloaded quickly and effortlessly. Find out more about IntelliLink™

Time saved that you can invest in making other areas of your business more profitable.

Enters a low-power sleep mode after a period of inactivity:

Keep your energy bill to a minimum.

Record when mail arrives by passing through the franking machine to obtain a date and time stamp:

No more messy ink pads and tedious hand stamping.

Funds remain secure protected by a PIN code:

You can control who has access to the credit on your franking machine.

Advertise your company in on every envelope:

Increase the likelihood of your mail being opened and read. Turn every piece of mail you frank into a promotional or revenue generating opportunity.

The DP225 is a SMART franking machine:

You're able to claim back your VAT on applicable Royal Mail services.

Access to high-quality customer and technical support:

Confidence that if you have a problem it will be fixed fast.
