DP430

DP430 → ACCELERATED PROCESSING PLUS MAXIMISED PRODUCTIVITY

→ PROFESSIONAL IMAGE

→ EASILY ADD A CUSTOM TEXT MESSAGE WITH THE QWERTY KEYBOARD

The easy-to-use, DP430 Automatic Digital Mailing System will amaze you with its simplicity and advanced capabilities.

The cutting-edge IntelliLink® technology contained within the DP430 provides an easy to use secure gateway to advanced features and services. IntelliLink® gives you access to a suite of services ensuring your system is kept current and operates at maximum efficiency. These include automatic downloads of postal rate changes and software upgrades. The DP430 also has the capability to download logos and advertising slogans transforming once manual processes into quick operations.

Correct value postage - every letter, every time

The DP430 can incorporate an optional 5kg integral weighing platform, freeing up desk space and guaranteeing that each letter or package bears the correct postage value. There are also options for 7kg, 12kg and 35kg interfaced weighing platforms.

The optional differential weighing technology enables batches of mixed mail to be processed quickly and efficiently. The differential mail feature means that a collection of mail can be placed on the scale and the machine will calculate the correct postage for each mailpiece as it is removed from the pile.

Information management

It's crucial for businesses to account for postage expenses. Departmental or client postage spend can be easily tracked and reported with the 25 standard accounts on the DP430; these can be upgraded to either 100 or 300 accounts if required. Reports can either be printed or there's the option of exporting to a PC for further analysis.

Savings of up to 34% off standard mail costs with Cleanmail® Advance available through the DP430.

By preparing your mail so that Royal Mail's automated technology can read and verify the address and postcode, you can obtain a discount from the franking tariff price.

Preparing your mail you've helped Royal Mail to sort automatically and so they offer **savings of up to 34% off** standard mail costs.

ROYAL MAIL ANNOUNCE MAILMARK™

Mailmark™ combines a new barcode with innovative optical technology and digital performance reporting. When you adopt Mailmark™, you'll know where your mail consignment is in the network, when it's scheduled to arrive and how well it performs – all at a click.

For further details or a discussion of your individual mailing requirements, contact Franking Machine Company today on Freephone 0800 955 2341.
